**Tuesday - Cooper Dawson
 Eric Ajieren
 Will Goldenberg**

**Wednesday - Geoffrey Dawson
 Oviea Akpotaire
 Irene Cai
 Sameer Deshpande**

**Thursday - Bruno Li
 Christopher Tran
 Samin Odhwani**

Instructions for patrons: The purpose of this service is to provide tutoring in mathematics. Do not expect the tutors to do your homework for you! You must show that you have made some effort to work problems on your own and the tutor will take it from there to help YOU complete the problem. Please show respect to the other patrons by not “hogging” a tutor only for yourself. Turn off your cell phones while you are in the Math Lab. Note that we have assigned four tutors on Monday and on Wednesday, since most math exams will be given on Tuesday or Thursday. Be sure to sign the register each evening that you use the Math Lab. **You can also ask for help with Physics.**

Instructions for tutors: You will report for work promptly at 7:00 and work the full two hour period. Take the sign-in book from the front desk and have each student who attends the lab register their name, time in, time out, course, and instructor. You will also record your attendance. The first thing for you to do each time you work is set up some tables and chairs in the Conference Room for the students to work on. Return the sign-in book to the front desk at 9:00. If you note that a co-worker is not present or comes in late, please report this to me. Make an effort to remind each other about work so that we can have full coverage each evening. Please trade places with someone if you encounter a conflict. Circulate in the room to help or have students come to your table to get assistance.
